

DO HELICOPTERS MAKE YOU WANT TO *SCREAM?*

Go to www.StoptheChopNYNJ.org
to find out what you can do.

Tourist sightseeing helicopters fly all day long, 365 days a year, out of City-owned Downtown Manhattan Heliport at Wall Street. With a hundred flights a day, it is the busiest heliport in the world.

These nonessential flights pollute our environment, harm our children, and make us miserable. Yet Mayor de Blasio continues to use City-owned space to subsidize these for-profit operators.

The time has finally come to take back our skies and our sanity.
